## ALL PRODUCTS PROUDLY MADE IN THE USA.

### **EVOLUTION™ STEAMER**

Boilerfree, connected or connectionless. Electric, natural gas, or propane. Available in 3, 6, 9, or 12-pan capacities.

### STEAM&HOLD™ STEAMER

Boilerfree connectionless vacuum steamer. Electric, only. Available in 3, 6, 9 or 12 pan capacities.

## ACCUSTEAM™ GRIDDLE XLR8™ UPPER HEATED PLATEN

Steam heated griddle available in 24", 36" 48" widths. Electric, natural gas, or propane. Shown with XLR8 Upper Heated Platen.

### EDGE™ SERIES TILT SKILLET

13, 30, or 40 gallon capacities with a variety of tilt and accessory options.

EDGE™ SERIES KETTLE

2/3 & full jacketed stationary & tilting kettles.

**Backed by the Industry's ONLY Lifetime Service & Support Guarantee.** 

Trained service technicians available 7 days a week, 7am-7pm EST.

## TAKE CONTROL WITH THE STEAM&HOLD STEAMER

Versatility at Your Fingertips

n 1993 AccuTemp introduced the Steam&Hold™ connectionless steamer to the market. By incorporating a vacuum pump, which could lower the pressure inside a specially reinforced steamer cavity, this unit could boil water and generate steam at temperatures as low as 150° F. The result was foods traditionally steamed at 212° F could now be prepared better and held for hours, without over-cooking or losing quality. This lower temperature cooking provided better yields from meat products, better color and nutrient retention from vegetables, and the ability to re-therm temperature sensitive items at a lower temperature.

While this cooking control was a plus for many operators, the real groundswell of interest came from the simplicity of this unique steamer design. The Steam&Hold™ produces steam in the bottom of the cooking compartment, with heating elements that never come into contact with water. This means that it does not need a water or drain line, does not require periodic deliming or descaling and does not need a water treatment system.

The Steam N' Hold™ established an entirely new category of steamers now commonly known as a connectionless steamer. Today, the connectionless steamer sub-category is recognized and used throughout the industry, when easy access to water or drain lines is not available, or when operators are frustrated with the headaches, cost and downtime of boiler-based steamers. The 'Fast Cook' and patented 'Thermostat' modes available with the Steam 'N' Hold™ offers you more versatility than any other steamer on the market!

### Models Available:

3-pan counter top 3-pan stand-mounted 6-pan counter top 6-pan stand-mounted 12-pan dual cavity, stand-mounted

## **ADVANTAGES OF THE** STEAM&HOLD™

- » No water or drain line required
- » ENERGY STAR® qualified
- » No de-liming or water filtration
- » Patented low temperature cooking
- » UL certified holding cabinet
- » EPA 202 Certified- No hood required\*

# THE EVOLUTION STEAMER DELIVERS EFFICIENCY NOW

Efficiency is the Future

ccuTemp started the no-hassle steamer revolution with the Steam&Hold™ connectionless steamer, but refused to stop there. When our customers asked for the convenience of a connected, boilerless steamer that was equivalent to a boiler-based steamer, yet more efficient, AccuTemp had the answer: the Evolution™ boilerless connected steamer! The Evolution™ delivers convenience with faster cook times, menu versatility, improved food quality, and trouble-free operation.

The Evolution™ line of 6-pan steamers features an optional simple-to-connect water and drain line. Unlike other connected steamers, the Evolution™ does not require water filtration of any type or have any water quality exclusions in its warranty. The Evolution™ 's boilerless design includes a cast heater that is not exposed to water, thus no deliming and expensive boiler blowdowns or repairs are necessary.

Looking for SPEED? The Evolution™ features our exclusive, patented Steam Vector Technology (SVT), which creates a naturally forced convection that uses no motors, pumps or fans to deliver the most even pan-to-pan temperature, all without any moving parts! Simple-to-operate digital controls means fewer parts overall, less maintenance and less downtime. This steamer is designed specifically for high volume kitchens that are tough on equipment.

The Evolution™ is the most water efficient connected steamer on the market. Using only 4 to 8 gallons of water each day, the Evolution™ can save up to 200 gallons of water per day when compared to standard connected steamers! Not only does this save on water and utility costs, but also on sewage costs, since far less water will be going down a drain.

### Models Available:

3-pan countertop 6-pan dual cavity, stand mounted 9-pan dual cavity, stand mounted

9-pan triple cavity, stand mounted

6-pan counter top

6-pan stand-mounted

12-pan dual cavity, stand-mounted

UNLEASH THE POWER OF THE ACCUSTEAM GRIDDLE

In your Kitchen

he AccuSteam™ Griddle boasts incredibly uniform surface temperatures of ± 5°F due to its unique steam chamber design. Typical griddles have surface temperature variations of ± 25° to ± 45°F. Steam, by nature, is attracted to anything colder than itself. When cold or frozen product is placed on the griddle's surface, the steam is attracted to that portion of the griddle. This causes a near instant surface temperature recovery. Meaning, operators can cover the entire griddle surface with frozen product and turn product to the same spot on the griddle. This leads to more output per foot of griddle, less running feet of griddle required and often, less hood space and lower HVAC costs. Uniform surface temperature produces very consistent results, even with inexperienced cooks.

The AccuSteam™ Griddle's even surface temperatures aligned with near instant recovery equals more consistent product and decreased or stabilized ticket times during peak business periods. If a burger takes 2 minutes per side to cook, it will still take 2 minutes per side to cook whether you are cooking quantities of 2 or 102. Regardless of load or product, your AccuSteam™ will be there for you when you need it the most.

### **ADVANTAGES OF THE ACCUSTEAM™**

- » Available in natural gas, propane, or electric
- » Easy to clean
- » Near instant recovery
- » Energy efficient
- » Even surface temperature
- » Space saving design
- » Edge-to-edge cooking capability
- » ENERGY STAR® qualified

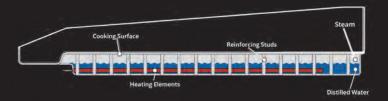

# **HOW DOES IT WORK?**

ue to the nature of steam, your cooks can literally place product anywhere on the griddle's surface without worrying about hitting a hot spot or landing on a cold spot. There are no cold spots on the AccuSteam™ Griddle! Near instant recovery means no extended cook times when a rush hits, thereby resulting in more table turns, a higher quality product, more satisfied customers and employees, and increased revenue daily for your business!

With the AccuSteam™ Griddle's stainless steel cooking surface, clean up is a breeze. It can be cleaned in less than 5 minutes, saving time and labor. Special brushes, grill bricks, screens, chemicals or powders are not required to clean the AccuSteam™ Griddle and you do not need to baby the cooking surface as you would with a chromium finish griddle.

ROUND OUT YOUR KITCHEN WITH EDGE SERIES KETTLES

Gain an Edge in your Kitchen

The Edge™ Series Steam Kettle line is 100% self-contained, and includes both gas and electric heated models. Just like our Edge™ Series Tilt Skillet line, we have numerous options to fit your kitchen's specific needs. Electric countertop units are available in 5 and 10 gallon capacities while our floor models are available in both full and 2/3-jacketed configurations in 20 to 100+ gallon capacities. We even have low-rim-height full-jacketed models.

All stationary floor model kettles come standard with large 2-inch diameter tangent draw-off valves and domed cover, actuator-assisted lid. All models come standard with 304 stainless steel liners with 316 upgrade available. All Edge™ Series Kettles are available with a full complement of time, energy and labor-saving options and accessories including faucets, spray hoses, tangent draw-offs, lids, measuring strips, cleaning utensils, strainers, perforated baskets, and more!

Customize the Edge™ Series Kettle to make cooking (and cleaning) easier. AccuTemp offers single and double pantry faucets, a kettle brush cleaning kit, and triple perforated SS baskets.
